

**REPORT ON DRIVEWAY NUMBERING
PUBLISHED JAN. 5, 2015**

PAGE 1 OF 1

References: **Declarations 5.01.7:** Other Property. "The Association shall have the right to maintain such other areas within or contiguous to the subject property as the board determines from time to time is in the best interest of the owners, and the cost of any such maintenance shall be a common expense".

Preamble: Earlier in 2014, some owners had asked whether the HOA would be having the unit numbers at the foot of our driveways repainted, thinking they might be needed or required by IHBVFD. No-one questioned knew for certain who (HOA or IHBPW) had last painted them, or when they had been done. We checked with IHBPW who could not confirm that they had ever done them in the past, but they were clear that they would not redo them now. We checked several other association neighborhoods in IHB; none had similar markings. We checked with IHBVFD who told us they were irrelevant; therefore we decided to not do any repainting.

Report:

Thinking this was settled, we did not pursue it, or post a report. However, an owner questioned at the Dec. 16, 2014 Board meeting whether we were going to repaint the numbers. Andrew Weeks responded to the owner with the above information. We are posting this report to forestall any further questions or uncertainty.
